## PRESIDENTS MESSAGE

High Hopes was a tremendous success.

Gail and her fabulous team, Anthony Conti, our helpful vendors and Maggie Bruno with her unique, colorful commentary helped make the day joyful and memorable. Thank you all.

Now it is the time to get our Republican candidates elected in the June primaries. The issues are all about the culture of corruption that is being imposed on us by the current “progressives” in office. Republican candidates are stressing tax reform, legal reform, education reform, and political reform, and let us not forget, Obamacare.

Be sure to attend the May meeting. We will be hosting our 2014 Scholarship winners. Join us to meet the recipients and listen to their essays. Proudly see the fruits of your scholarship program. Our goal is to advance conservative thinking in education. Thank you Juanita Robbins for helping us get this goal accomplished.

Our afternoons speaker will be Janet Levy (her bio is included in this newsletter)

*Long Live the Sister Hood*

Be sure to schedule this meeting on your calendars.

## MOVING DOWN THE SLIPPERY SLOPE OF ISLAMIZATION

JANET LEVY

For several decades, a Trojan horse in the guise of a benign religion has insinuated itself into the very fabric of American society. Under the protective veneer of multi-culturalism and religious tolerance, the so-called "religion of peace" has established a beachhead in our midst with an extensive sphere of influence in the media, academia, politics, the military, the prison system, law enforcement and beyond.

Disguised as a religion, Islam is truly a theo-political-legal triumphalist ideology focused on achieving worldwide supremacy. Stealthily infiltrating our communities and institutions, Muslims have succeeded in compromising our constitutionally guaranteed freedoms, cultural norms and legal system. Through a web of deception, legal action and spurious charges of anti-Muslim bias or "Islamophobia," they have effectively controlled the dialogue on Islam and blocked open and honest discussion of Islamic ideology.

Revealing Islam's true objectives, CAIR founder Omar Ahmad stated, "Islam is not in America to be equal to any other religion but to become dominant. The Koran should be the highest authority in American and Islam the only accepted religion on earth." A well-advanced and comprehensively executed plan to overthrow the U.S. government and replace it with Islamic rule under the shariah has been in operation for several decades. If we are to save Western civilization from the scourge of this repressive, medieval ideology, the time to ACT is now.

## Legislation

### NO on SB 837

Earlier this week the California Federation of Republican Women's Voting Body voted to **OPPOSE SB 837** (Steinberg, D). SB 837 would "require each school district or charter school that offers kindergarten to offer transitional kindergarten, and would require a child that meets specified minimum age requirements to be admitted to transitional kindergarten." While SB 837 might be well meaning, what it really mandates is more state spending and more union members with little actual benefits for our students. SB 837 encroaches on successful private and parochial pre-schools by ordering all school districts to provide a transitional kindergarten. Author of the bill, Darrell Steinberg, plans on his transitional kindergarten rollout to be fully implemented by 2020 and cost the California taxpayers over \$1 billion a year. SB 837 will be heard in the Senate Education Committee on Wednesday, April 9<sup>th</sup> at 9am. Please call the members of the Senate Education Committee and tell them to VOTE NO on SB 837!

### Thomas Paine Scholarship      Juanita Robbins

As you know, we closed the Thomas Paine Merit Scholarship application on our website on March 16<sup>th</sup>. It will be available again in September. We have some very exciting and deserving recipients. The essay judges, Victoria Wilson, Beverly Testwuide, Joanne Carlson, JoAnn Stipkovich and Shirley Hartley, reviewed the applications and interviewed the finalists last month.

Now, I'm very pleased to announce that our scholarships will be going to two very worthy and outstanding students. They will be introduced and receive their awards at our May 8<sup>th</sup> meeting. At that time, when they will read their award winning essays, you will learn more about each of them and their plans and hopes for the future. And I guarantee you will be impressed and more confident about our country's future knowing it will be in such capable hands.

I think we can all be proud that WHRWF is, in this small way, helping to return America to a Constitutionally limited government as our founders intended it to be. So please do attend the May 8<sup>th</sup> meeting and meet these amazing students. And again, thanks so much for all your support.

## Brandeis Gives Honorary Degree to Critic of Judaism, Refuses to Give One to Critic of Islam FrontPage Magazine

Brandeis University gave an honorary degree to leftist writer Amos Oz who described religious Jews as “Hezbollah in a skullcap” In one speech, Oz said, “A small sect, a messianic sect, obtuse and cruel, emerged a few years ago from a dark corner of Judaism, and it is threatening to destroy all that is dear and sacred to us, to impose on us a wild and insane blood ritual... They are guilty of crimes against humanity.”

“Why didn’t Israel develop as the most egalitarian and creative social democratic society in the world? I would say that one of the major factors was the mass immigration of Holocaust survivors, Middle Eastern Jews and non-socialist and even anti-socialist Zionists.”

“Then there were the masses of Orthodox Jews... to whom socialism meant blasphemy and atheism.”

“As for the North African Jews,” Oz writes, they were “conservative, puritan, observant and family oriented and to some extent, chauvinistic, militaristic and xenophobic.”

It goes without saying that Amos Oz is a repugnant human being and a vile bigot. But that didn’t stop Brandeis University from honoring him anyway.

However Brandeis University [gave in to pressure from terrorist-linked](#) Muslim Brotherhood front groups like CAIR and the Muslim Students Association to [withdraw an honor from a courageous critic of Islam](#).

Brandeis University — an institution named after Supreme Court Associate Justice Louis Brandeis, a famed defender of free speech — has canceled plans to award an honorary degree to scholar Ayaan Hirsi Ali, who is known for her scathing criticisms of Islam and its treatment of women.

The Council on American-Islamic Relations sent a letter to Dr. Lawrence, referring to Ms. Hirsi Ali as a “notorious Islamophobe.”

A native of Somalia, Ali has written and spoken extensively of her experience as a Muslim girl in East Africa, including undergoing genital cutting, a practice she has vigorously opposed, and her family’s attempts to force her to marry a man against her wishes.

“She is a compelling public figure and advocate for women’s rights, and we respect and appreciate her work to protect and defend the rights of women and girls throughout the world,” said the university’s statement. “That said, we cannot overlook certain of her past statements that are inconsistent with Brandeis University’s core values.”

Hirsi Ali has called Islam “a destructive, nihilistic cult of death.”

In 2007, Ali helped establish the AHA Foundation, which works

to protect and defend the rights of women in the West from oppression justified by religion and culture, according to its website.

The foundation also strives to protect basic rights and freedoms of women and girls. This includes control of their own bodies, access to an education and the ability to work outside the home and control their own income, the website says.

Brandeis President Frederick Lawrence did not immediately respond to a request for comment as to whether obedience to Islamic teaching was a core value of the university. His statement did stress that “free expression” is central to Brandeis — except for expression that offends Muslims, it would seem, based on the rejection of Hirsi Ali.

Hirsi Ali grew up Muslim in Somalia, where she overcame genital mutilation and an arranged marriage.

She emigrated to the Netherlands and eventually joined Dutch Parliament. She now lives in the United States and is a visiting fellow of the American Enterprise Institute.

She considers herself a classical liberal and an atheist, and has worked to call attention to the plight of women under oppressive Islamic regimes.

“This is a real slap in the face to Muslim students,” senior Sarah Fahmy, a member of the Muslim Student Association who created the petition, said of the honor before the university withdrew it.

“This makes Muslim students feel very uneasy,” Joseph Lombard, chairman of Islamic and Middle Eastern studies, said in an earlier interview. “They feel unwelcome here.”

Ayaan Hirsi Ali fled the Netherlands after years of threats and came to America in 2006. And so the double standard on Islam and every other religion continues.

Critics of Judaism and Christianity can receive honorary degrees, critics of Islam cannot.

It’s time to end this special Muslim Privilege.

## War on Flatulence? Obama to Regulate Cow Emissions for Climate Plan

The Obama Administration wants to reduce methane emissions by cracking down on cows' digestive processes.

is "malpractice" and that ignoring it will have "catastrophic" costs.

In a White House fact sheet, the federal government is looking to adopt "cost-effective technology" to reduce dairy sector greenhouse gas emissions by a quarter within the next six years. Purchasing methane digestion technology for U.S. dairy, the document says, is a part of the Administration's plan to "protect our kids' health and begin to slow the effects of climate change."

This goes hand-in-hand with the EPA's report that states: "beef and dairy cows [are] by far the largest emitters" of methane gas.

"While cows may be the "largest emitters" of methane, there is less methane in the atmosphere today than in the early 1990s due to market incentives for energy producers to capture and sell the gas. An article at the *Daily Caller* says that methane gas has dropped 11 percent over the last two decades and that the EPA's methane leakage estimates are 50 times higher than the estimates made by oil and gas companies.

Responding to a new United Nations report on climate change, U.S. Secretary of State John Kerry said denying climate science

## THANK YOU!

### A VERY BIG THANK YOU

I wish to thank everyone in our club who donated time, money, wine, opportunity and auction gifts, because they were all so beautiful, useful and fun that they sold easily. We actually ran out of opportunity tickets! It takes a great deal of cooperation to give a fundraising event, and I was truly amazed at the number of people who came forward to help in some way or another. I had help from the very beginning, starting with printing the invitations, and right through to transporting baskets and gifts, setting up the room Wednesday evening, selling opportunity tickets and wine at the event, and then handing out the silent auction gifts. After the event there were still people ready to help clean up and carry everything out. We had a very large turnout and everyone had a good time. It is thanks to the wonderful ladies (and gentlemen) who never said "no" and never felt I was asking too much. Thank you all very much.

## Patty Adair LAC FRW President

After attending the Santa Monica RWF meeting on Wednesday that highlighted the work of Dominic Di-Natale, Fox newsman, we feel it is important that our county and southern division federated members step up and contact the following Congressman regarding HR 4069. We need to help free Dr. Afridi from the Pakistan jail he has been in for the past THREE years.

Dr. Afridi provided the documentation that Osama Bin Laden was living in Pakistan. HR 4069 is to limit funding to Pakistan. Unfortunately the State Department did not provide a visa to Mrs. Afridi and her husband would not leave her. The rest of the family did leave three days before the Seal's raid.

Please call and give your support that HR 4069 is passed.
